TOWN WARRANT
THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Pittsfield in the
County of Merrimack in said State, qualified to
vote in Town Affairs:*

(L. S)

You are hereby notified to meet at the Town Hall in said Pittsfield on Tuesday, the fourteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To see if the town will vote to raise and appropriate the sum of \$100 to increase the salary of the tax collector. (Recommended by the Budget Committee).
4. To see if the town will vote to raise and appropriate the sum of \$125 for the care of the town hall and \$25 for the care of the tower clock. (Recommended by the Budget Committee).
5. To see if the town will vote to raise and appropriate the sum of \$500 for the repair of the leased factory. (Recommended by the Budget Committee).
6. To see if the town will vote to raise and appropriate the sum of \$100 to increase the salaries of the two police officers elected by the town. (Recommended by the Budget Committee).
7. To see if the town will vote to raise and appropriate the sum of \$500 for the care of the shade trees of the town. (Recommended by the Budget Committee).

8. To see if the town will vote to raise and appropriate the sum of \$100 for reforestation and care of town forests.

9. To see if the town will vote to raise and appropriate the sum of \$400 for the control of the white pine blister rust.

10. To see if the town will vote to raise and appropriate the sum of \$500 for the District Nursing Association of Pittsfield. (Recommended by the Budget Committee).

11. To see if the town will vote to raise and appropriate the sum of \$100 for the observance of Memorial Day. (Recommended by the Budget Committee).

12. To see if the town will vote to raise and appropriate the sum of \$200 for band concerts. (Recommended by the Budget Committee).

13. To see if the town will vote to raise and appropriate the sum of \$50 for the benefit of the Pittsfield Winter Sports Association. (Recommended by the Budget Committee).

14. To see if the town will vote to raise and appropriate the sum of \$171 to the Lakes Region Association of New Hampshire.

15. To see if the town will vote to raise and appropriate the sum of \$2,563 for the state aid construction on the South Pittsfield Road, so-called.

16. To see if the town will vote to raise and appropriate the sum of \$565.48 for town road aid on Class V highways. (Recommended by the Budget Committee).

17. To see if the town will vote to raise and appropriate the sum of \$2,500 for the construction of a twenty-one foot tar and gravel roadway on Fairview Avenue, so-called,—a duly laid-out highway in said Pittsfield—beginning at the bridge over the brook near Green's icehouses and continuing to Dodge's Corner, so-called. (Petition).

18. To see if the town will vote to raise and appropriate the sum of \$3,000 for continuing the construction of a hard-surfaced road to the Upper City, so-called, beginning where the 1937 construction left off. (Petition).

19. To see if the town will vote to raise and appropriate the sum of \$3,000 toward the reconstruction and tarring of the Norris Road, so-called, beginning at the top of Lyford Hill and extending to the upper corner of the Catholic Cemetery on said road. (Petition).

20. To see if the town will vote to raise and appropriate the sum of \$1,200 for the continuance of permanent repairs on the Tilton Hill Road, beginning where the black road now leaves off and proceeding in an easterly direction along said Tilton Hill Road. (Petition).

21. To see if the town will vote to raise and appropriate any money for the resurfacing of Franklin Street. (Petition).

22. To see if the town will vote to raise and appropriate any money for forest fire fighting equipment.

23. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

24. To see if money shall be raised for a good and suitable tarvia road, at least 21 feet wide, to connect with the tarvia roads at each end of Joy Street, in order to take care of the heavy trucking and cars, and for the employees of the Golden Quality Shoe Co. (Petition).

25. To see if the town will vote to authorize the Selectmen to lease the town factory on Catamount Street to the Adams Brothers; provided, that the said Adams Brothers will lease their factory on Joy Street to the town of Pittsfield.

26. To see if the town will vote to accept the following trust funds:

Total		<hr/> \$75,014.91

Referring to the several highway petitions appearing in the Town Warrant: The Budget Committee, after careful consideration, voted to recommend the postponement of the project requested in each petition, mainly in view of the fact of the provision for maintenance of Class V Roads which is preferable to the undertaking at this time of an expensive program of construction. We feel that the voters will see fit to accept and support the recommendation of the Committee. To do so will in its opinion effect an economy, and aid in our effort to avoid an increase in the tax rate.

REPORT OF CARPENTER LIBRARY TRUSTEES

Circulation for the year, 21535 vols.

Fiction	13835
Non-fiction	1834
Magazines	1116
Juvenile	4750

The increasing circulation would seem to prove that more people are availing themselves of library privileges.

Those who have paid fines on overdue books may really feel that they have helped to purchase much needed children's books, for all "fine money" has been used for that purpose.

The recent purchase of Hammond's New World World Atlas with semi-annual supplements provides a means of keeping up to date with all geographical changes. This was purchased from the accrued interest of the Butler Fund.

Book Week (Nov. 13 to 19) was observed in the library by a pleasing display of books and a story hour by the librarian for the pupils of Grades 1-4 of the public schools.

It has been necessary during the year to thoroughly repair the roof of the library, and add new gutters and conductor; which was costly.

A new book section has been added to the reference room in order to shelve a greater number of reference books. A change both in appearance and usefulness has been made in the children's section by the addition of a new table and four chairs. A reserve fund of \$50 has been set aside towards the replacement of the heating plant of the library.

The librarian was given time to attend the Summer Institute for library workers held at Durham, N. H., July 11-23, thus assuring continued efficiency of our library service.

Trustees and librarian would like to thank all friends for their interest in and gifts of books and

magazine subscriptions to the library during the year. You have helped us to make the library a valuable asset to the community.

REPORT OF THE AUDITORS

We hereby certify that we have examined the accounts of the Town Clerk, Town Treasurer, Selectmen, Tax Collector, Overseer of the Poor, Trustees of Trust Funds, Library Trustees, Forest Fire Warden and Treasurer of District Nursing Association of the town of Pittsfield for the fiscal year ending January 31, 1939, and find them correctly cast and properly vouched. Town orders outstanding—Nos. 217, 241, 264, 272, 284, 288 and 291—\$285.55. Cash in hands of Town Treasurer as per bank balance, \$5,020.13; Selectmen's book balance, \$4,734.58. Because of the fact that in many instances the dividend of April 3, 1938 in the Trust Fund accounts was used to pay bills incurred during the fiscal year ending January 31, 1938, no income on most of the funds is shown for the current year.

(Signed)

ROBERT H. SANDERSON,
PHILIP W. SHERBURNE,
JOHN H. PERKINS,

Auditors.

GRAVE FOREST SITUATION FOLLOWS SEPTEMBER HURRICANE*

Woodland problems of timber salvage and fire control created in many towns by the September hurricane are of the greatest importance. **GOOD CITIZENSHIP CALLS FOR PERSONAL AND WIDE-SPREAD ACTION!**

The salvage of every thousand feet of logs which can be sold means money for landowners, wages for workers, employment for trucks, teams and machinery, as well as reduced forest fire hazard for all. If owners of windthrown timber have not yet acted, they should communicate with those who can help. **TOWN CHAIRMEN** are fully informed; **STATE ADVISORY AGENTS** can help to start logging by suggesting names of operators and giving other useful advice; **FEDERAL AGENCIES** are increasing the number of log storage places as rapidly as possible. **INDIVIDUALS MUST NOW CO-OPERATE!**

Forest fire danger for several years will be greater than usual. So much work must be done by public agencies to reduce hazard along roadsides, near improved and other exposed areas that many places will remain hazardous for some time to come. **INDIVIDUAL LANDOWNERS MUST TAKE A PERSONAL INTEREST!** Aid in clean-up work through the Agricultural Conservation Program is available to any woodland owner at \$4.00 per acre on area up to 15 acres. The County Agent should be consulted.

Support your local Forest Fire Wardens and Deputies. They are planning, with State and Federal

* On September 21, 1938, Pittsfield and surrounding towns were visited by a hurricane from the southeast, commencing about four-thirty o'clock in the afternoon, which caused much damage to buildings, timber lands, shade trees, orchards and the apple crop, telephone and electric light lines. The blown-down timber in Pittsfield is estimated to be about seven million feet. Logs from this blown-down timber are being purchased by the federal government and stored in ponds.

agencies, an intensive campaign to control fires. Help them by strict observance of the fire laws. Kindle no open fires without a permit from the Warden except when the ground is covered with snow. Co-operate by reporting fires you may see and in other ways. Fire fighting tool supplies are inadequate and should be reasonably increased by many towns. **YOU CAN HELP, AND IT WILL PAY, TO PREVENT FOREST FIRES!**

(b) ADMINISTRATION PROBLEMS

The biggest administrative problem faced during the past year has been to take care of the large number of pupils for the size of the rooms in the Pittsfield schools—particularly in the first grade and in the high school—so that instructional activities would be reasonably efficient. Some of the time this year fifty-seven pupils have been in attendance in the first grade. The report last year mentioned that a portion of the corridor at the Memorial school had been partitioned off to make a small space to accommodate a small group of the forty-five to fifty little people then enrolled. That plan worked with fair satisfaction last year, but this year with eight or ten more to be taken care of the accommodations are exceedingly inadequate. For us to put fifty-seven children into a room in which many states would not allow over forty-three, even though eleven at a time are permitted to overflow into a part of the corridor, is to absolutely prohibit the attainment in Pittsfield of accepted educational standards and is to fail to recognize the value of generally accepted health standards.

At the high school the big problem this last fall was to take care of ten or twelve more students than were enrolled the previous year in a building that, according to standards generally accepted years ago, would be overcrowded with half as many. One consideration was to get seats and desks for the additional pupils, another was to find a place to put them when they were got, and a third was to provide teachers enough so that the school could be divided into classes small enough to get into the rooms. To do these three things and on a budget that had been figured very closely without an increased enrollment was a staggering presentment. By scrimping on every other item in the budget (1) fifteen new desks and chairs were bought; (2) two electric light units were added in the assembly hall to light up additional space, and (3) another teacher was employed.

PART II

EDUCATIONAL POLICY

Much is being heard these days about the prospects of the democratic form of government in the world continuing to exist. Probably we have become more conscious in the past few years than ever before of the tremendous significance of the term "democratic." The more we study it the more we realize that a democratic country is far more than just a country with a democratic form of government. A full appreciation of the liberties and of freedom of action, of speech and of thought come only with meditation upon the facts gained from the study of the life of peoples in every country of the world. Through the study of psychology we have come to realize that education comes only through experience so, if we are going to perpetuate the democratic form of life that we have in the United States of America, we must not only learn the facts of the true conditions of peoples all over the world and teach them to our children but we must also train our boys and girls in the democratic way of life by giving them a chance to practice throughout their childhood the democratic way of living. Students of political science are agreed that the greatest factor in the cause of the fall of the recent attempt at democratic rule in the countries of Europe was the lack on the part of the people of experience in governing themselves. Although they had studied the governmental machinery of other democracies, they had had no practice in handling or operating it and it soon got out of control. If our boys and girls are to make as few mistakes as possible in running our governmental machine when they become adults and take over the steering wheel, our schools must be so organized as to give them such practice with democratic methods as will enable them to make successfully the transition from their participation in their adolescent social and political life to their participation in their adult social and political life. We must keep in mind not only our obligations to train our young people in citizenship but also our obligations to train them in

democratic citizenship, in the democratic way of living. This, then, is the educational policy of the local schools.

PART III

COURSES OF STUDY

(a) Courses of Study

Last year this report mentioned that the seventh and eighth grade boys were for the first time for a number of years receiving instruction in elementary shop work. This opportunity was so greatly appreciated by the boys that a course in general shop work giving one unit of credit toward the sixteen required for graduation is being offered this year to the freshman boys in the high school and is being pursued by twenty-two of them.

Another course added to the high school offering this year for the first time is Office Practice which is required of the seniors taking the commercial course.

The third new course introduced this year into the Pittsfield schools is Home Training for seventh and eighth grade girls. Although the facilities are woefully inadequate, the girls are getting some very valuable training in the study of clothing, including sewing, and in elementary problems of the home. It is hoped that additional facilities may be provided next year so that practice in preparing foods will be possible. It is regrettable that with the Federal government standing ready to pay two-thirds the salary of a teacher of approved courses in Home Economics and one-half the salary of a teacher of approved courses in shop subjects or in agriculture, that the boys and girls in Pittsfield High School have to be denied the opportunity to receive the training for worthwhile citizenship that these courses are furnishing in so many other communities.

Teachers who attended summer school during the summer of 1938:

Richard S. Ricciardi
Ruth C. Wattie
Gertrude M. Trickey
Wayne S. Gray

Iona M. Sheeche
Grace E. Marden
Dora E. Page
Arthur E. Willey

During the past school year two changes occurred in the teaching staff: Mrs. Williams resigned as teacher of music on February 5, 1938, and Mrs. Batley as teacher of Grade II on March 31, 1938. Mr. Arthur E. Willey, a graduate of the New England Conservatory of Music, was elected to fill the vacancy left by Mrs. Williams, and Mrs. Bouchard substituted in the second grade for the remainder of the year.

At the end of the year Helen Evangeline, the sixth grade teacher, and Frances Demers, the commercial teacher, withdrew.

This year Miss Sheeche was transferred from the seventh grade to the sixth, and Walter T. Palmer, of Enfield, N. H., who graduated with the Bachelor's degree from Keene Normal School last June, was elected to fill the vacancy thus made. Mr. Palmer is also carrying on physical education activities with the up-

per grade boys. Miss Demers' place was taken by John W. Day, of West Stewartstown, who graduated from Plymouth Normal School in 1937 with a Bachelor's degree, and taught last year at Canaan High School. Mr. Day is also assisting with the athletic coaching.

The vacancy in the second grade was filled by Grace E. Newton of Norway, Maine, a graduate of Gorham Normal School in Maine, who had taught several years, the last four of which were at Bartlett, N. H.

The additional teacher, Gertrude M. Trickey of Alton, who graduated from the University of New Hampshire in 1937 and received the Master's degree from there last summer, is teaching sociology and history in the high school, and eighth grade social science and seventh and eighth grade Home Training at the Grammar school.

The fact that eight of the sixteen Pittsfield teachers, just half, spent the past summer in study at summer schools is evident of their interest in professional improvement, and makes an enviable record.

(c) Eighth Grade Tests

Standardized Achievement tests were given in May and June, 1938, to all eighth grade pupils in the supervisory union. The table below shows some of the most interesting facts regarding the results of the tests.

	Pitts- field	Wolfe- boro	Alton	Barn- stead	New Durham	Tufts- boro	Total
Total taking test	41	49	12	17	7	11	137
Median Total Score*	8.5	9.2	8.4	8.2	6.6	7.1	8.5
Standard Score							8.9
No. <i>equalling or exceeding</i> standard	19	27	3	8	1	3	61
No. <i>below</i> standard	22	22	9	9	6	8	76
No. at least 1 year <i>above</i> standard	7	15	2	2	1	1	28
No. at least 1 year <i>below</i> standard	14	15	5	9	5	8	56
No. at least 2 years <i>above</i> standard	0	8	0	0	0	0	8
No. at least 2 years <i>below</i> standard	9	7	1	3	5	5	30
Per cent up to standard	46	55	25	47	15	27	45

* A score of 8.5 is what a normal child five months along in the eighth grade is expected to receive on the test. A score of 6.6 is what a normal child six months along in the sixth grade is expected to receive and so forth.

SPECIAL APPROPRIATION PROPOSED
(ARTICLES IN WARRANT)

New equipment	<u>\$500.00</u>
---------------------	-----------------

Total assessment required to cover budget and appropriations	\$25,960.00
--	-------------

The total of \$25,960 being asked for may be compared with appropriations of previous years by reference to the following table:

	Appropriations		Appropriations
1939 (Est.)	\$25,960.00	1931	\$27,661.00
1938	24,318.00	1930	25,802.00
1937	26,319.00	1929	26,191.50
1936	26,765.50	1928	26,068.33
1935	26,665.50	1927	27,301.33
1934	23,151.00	1926	28,810.56
1933	20,750.00	1925	25,438.38
1932	22,723.00		

If the amount requested is raised this year the average appropriation for the five years from 1935 to the present will be \$26,005.60 as compared with the

average for a similar period ten years back, 1925-29, of \$26,762.02. If that average had been maintained during the five-year period just closing, \$3,782.10 more would have been raised. In the light of the fact that the average enrollment from 1925 to 1929 was 392 and the average from 1935 to 1939 will be about 464 the decrease in appropriations takes on added significance. If the appropriations had increased in proportion to the increase in the number of pupils in school, \$23,483.45 more would have been raised during this period.

In addition to the facts stated above perhaps some of those shown in the table below will be of interest and concern to those who chance to read this report.

	Total Costs*	High School Costs	Total High	Enroll- ments† Elem.
1939-40	\$32,945.00**	\$11,155.00**	170**	315**

1928-29	29,597.27	9,789.48	93	301
1927-28	27,278.05	8,222.53	87	295
1926-27	25,308.97	8,079.93	89	287
1925-26	28,770.74	7,879.88	83	300
1924-25	25,294.42	7,754.62	79	312
1923-24	26,288.97	8,143.26	92	305
1922-23	22,127.58	6,568.68	79	332

It can be observed that the total high school cost last year was \$9,938.33 with 153 pupils enrolled, and a glance down over the table shows that the high school

* Not including payments on debts because the payments for which the debts were incurred had already been included.

† Total enrollments figures have been taken instead of average membership because facilities have to be provided for the greatest number enrolled rather than the average number.

** Estimated.

costs have varied little during the past ten years even though the enrollment has increased from 87 to 153. In fact the average high school cost for the past five years was \$9,967.91 with an average enrollment of 137.4, and the average high school cost for the previous five years was \$10,059.57 with an average enrollment of 111.2. These figures do not seem to indicate that the educational offering for the high school pupils of Pittsfield has kept pace with the increasing demands.

A report issued by the State Board of Education last summer showed that the average per pupil cost for instruction in Pittsfield High School in 1937-38 was \$58.14. Only three of the eighty-three other high schools in the state had lower costs: Newport with an average membership of 331.08 and an average cost for instruction of \$54.09; Dover with an average membership of 859.37 and a cost of \$54.49 per pupil; and Newmarket with an average membership of 138.39 and an average cost of \$57.02. The state average for the eighty-four schools was \$79.17. There were nine high schools, including Pittsfield, with average memberships between 125 and 160. The average per pupil cost for instruction in the nine schools was \$74.13, or \$15.99 more than Pittsfield's. If Pittsfield had spent as much per pupil as the average of these nine schools, it would have spent \$2,257.31 more than it did. If it had spent as much per pupil as one of the nine in this group, it would have spent \$6,901.04 more than it did. If it had spent as much as the average throughout the state, it would have spent \$2,968.81 more than it did. It is indeed doubtful if Pittsfield boys and girls can receive an education comparable with that received by other boys and girls in the state with such limited funds made available on which to operate a high school.

The average cost for high school instruction in the public high schools of the state in 1937-38 per \$1,000 of the equalized valuation was \$2.87. Pittsfield's equalized valuation was \$2,499,681. If Pittsfield had spent last year this \$2.87 per \$1,000 of its equalized valuation plus the \$3,500, approximately, it received for high school tuition, it would have spent \$10,679 for

instruction instead of the \$8,208.27 it did spend, a difference of about \$2,470.

Perhaps the net cost of the operation of the local high school to the tax payers of Pittsfield would be of interest. If we subtract the tuition receipts of \$3,500 from the total cost of \$9,938.33, the result, \$6,438.33, represents this net cost. This is \$2.60 per \$1,000 of the equalized valuation. The most generally accepted basis used to estimate a community's ability to support a high school is \$3.50 per \$1,000 of the equalized valuation. If this year Pittsfield raised for high school purposes \$3.50 on each \$1,000 of its \$2,405,522 equalized valuation, it would raise \$8,419.33. This sum added to the \$4,800 expected to be received for tuition would make about \$13,200 available for the operation of the high school. This is \$2,045 more than the estimated budget as it now stands.

One additional bit of information regarding the finances may be of interest. In October, 1938, the budget for the present year was submitted to the State Board of Education and application made for State Aid on the elementary schools. If approval is given and some aid granted, it will eventually help to ease the tax load in the elementary department.

PART V.

SCHOOL PLANT

In last year's report a long list of needed repairs and improvements to school buildings and equipment was given. Although only a few of the items can now be checked off as having been attended to, those few that have received attention were mostly of major importance. At the high school more adequate lights were installed in the small recitation room at the head of the stairs and in the assembly hall which is used also as a freshman home room, the walls and ceiling of the hall and tower were painted, the window sash throughout the building was carefully inspected and repaired or replaced, the roof was repaired and a snow guard put on the front side of the roof over the entrance.

At the Grammar school the windows were inspected and repaired or replaced as at the high school, the upper hall and the superintendent's office were painted, a few old shades were replaced in the tower room and the superintendent's office, and the roof was repaired extensively due to the hurricane.

At the Memorial school an expensive brick work job was done in the attic to save the main walls from further crumbling, celotex was put up on the basement ceilings, the chimney was pointed up and screened to keep out birds.

The budget for next year has been prepared with the intention of making further progress with the gradual improvement of the school buildings along the indicated lines.

PART VII

AUXILIARY ACTIVITIES AND SPECIAL
REPORT

(a) REPORT OF HEADMASTER

The world of today presents a challenge to the schools of America, a challenge to prove to the youth of the country and of the world the worth of democracy. At a time when peoples are moved by studied propaganda towards a goal of collective economic security at the expense of individual liberty and freedom, the danger that immature minds will be too easily convinced that the former is more to be desired than the latter is all too real. No other institution is equipt to meet the challenge as is the school, and it must meet it if we are not to return to a period comparable to the Dark Ages. Our ancestors struggled for centuries to gain for themselves certain rights, which, up to a short time ago, we considered inalienable. Today these rights, which have come to be of as little significance to us as the running water which we turn on at the tap, or the light which comes when we push a button, are endangered. We must recognize that it is the fundamental duty of the school today to so enhance in the minds of youth these human rights, which are the basis of democracy, that their value will

be as high above the implied alternative of security as "life" is above "existence."

Pittsfield is but a small part of the world and of the nation but its schools can do their bit in the reselling of democracy, with its inherent individual rights, to youth. The faculty of Pittsfield High School is keenly alive to its duty in this respect.

The second semester of the 1937-38 school year closed with graduation exercises at the Strand theatre. Twenty-seven pupils were awarded diplomas. They were: Luella Chick, Ella Dame, Helen Daroska, Dolor Drolet, Charles Edgerly, George Emerson, Frances Forbes, Ellena Foss, George Freese, Eva French, Robert French, Mary Garland, Thomas Hunter, Elaine Hall, Robert Kelley, (third ranking student), Harold Kidder, Helen Lamprone, Hazel Marston, Ralph Merrill, Harold Moulton, Phyllis Osgood, (second ranking student), Arthur Riel, Sidney Robinson, Mary Rogers, (first ranking student), Christine Small, Leonard Tasker, and David White.

Prizes were awarded as follows: The Daughters of the American Revolution prize to the student receiving the highest grade in United States History, to George Kelley; the Moody Kent prizes to the Junior boy and girl judged by the faculty to be highest in scholarship and attainment, to Linden Sheehan and Esther Peaslee.

Many of the graduates are continuing their studies at post-secondary institutions. Robert French, Robert Kelley, Arthur Riel, Mary Rogers, and David White are at the University of New Hampshire; Helen Daroska, Eva French, and Phyllis Osgood are attending Keene Normal School; Frances Forbes and Hazel Marston are at Concord Business College; Ellena Foss is a student at the Boston School of Domestic Science; and George Freese is attending New Hampton Academy.

An investigation shows that of the other graduates thirteen found employment and two are as yet unemployed.

I am happy to report that during the semester Pittsfield High School won recognition in scholarship by

placing fourth in algebra in the annual state competition, and in athletics by winning the championship of the newly formed Southeastern League in baseball.

The Washington trip and the Junior-Senior Reception were outstanding events of the semester.

On September 6, 1938, the opening of the new school year, 163 pupils registered at Pittsfield High School. Of this number fifty-eight were tuition pupils. Since that time three pupils have entered school and five have left. It is needless to say that the school is in an overcrowded condition which presents some very difficult administrative problems in addition to an actual menace to the health and well-being of the pupils. School socials are now, of necessity, being held at the Pittsfield Athletic Club hall.

Mrs. John W. Day and Miss Gertrude Trickey are the new members of the faculty. Mr. Day is teaching commercial subjects and coaching basketball, Miss Trickey is teaching the social studies at the high school, and the social studies and domestic science at the grammar school. Mr. Ricciardi, Miss Elkins, Miss Wattie are continuing in science, modern language and history, and English respectively. Two members of the faculty attended summer school for further professional training and three have joined the National Education Association.

The commercial curriculum is now complete as planned four years ago. It is my recommendation that the offering in this field be improved by adding a course in the principles of business which would include such divisions as business organization and management, salesmanship, and advertising. Such a course could be offered as an alternative for office practice, a subject adapted to a comparatively few of the pupils.

Although the needs of the students are now being more nearly met through a broader offering of subjects than heretofore, nevertheless there are certain resultant problems which I feel require explanation. The alternation of some courses and the adding of new courses without additional teachers and with the physical limitations of the school building has pre-

determined the schedule of classes to such an extent that it is not possible to arrange a rational placing of study periods in relation to classes. This works a particular hardship on the members of the ninth grade where study periods and classes should alternate while the adjustment to the new situation is being made. The present set-up also precludes the possibility of such valuable non-unit courses as automobile driving classes, health education, and the like.

General shop has proved to be a worthwhile addition to the curriculum judging from the enthusiasm with which it has been welcomed by the twenty-two ninth grade boys who have been permitted to take it. Good work is being done by the boys under the direction of Mr. Palmer in spite of a decided lack of adequate facilities.

The fact that training for citizenship is the fundamental objective of the work in Pittsfield High School does not in any way excuse the maintenance of other than reasonably high scholastic standards. The standard testing program shows classes above the national median in thirteen out of twenty-two standard tests given at the close of the last school year, and below the median in eight tests. It is felt that better teaching will bring improvement in these latter courses by the end of the school year. Those who enter college and normal school evidence a need for more thorough preparation as well as for the inculcation of habits of hard work. This may be explained by the fact that it has become necessary to adapt the work of the school to individual needs of a group of pupils who in other less democratic times would not have attended high school with the result that an inertia has been created which is unquestionably a deterrent to college preparation. Under the circumstances it is unavoidable that such a situation should arise and one would not suggest that steps be taken to remove the cause. However, a recognition of its presence and the cooperation of parents who are planning to have their children go to college in insisting on two to four hours of regular home study each day will do much towards counteracting its effect.

Extra-curricular activities play an important part in the work at Pittsfield High School. They prove to be most valuable as a medium for active training in citizenship. The objective in these activities is, in so far as is possible, to permit pupils to purpose their activities, plan them, carry them through, and judge the results, working together as class or club units. The Student Council, which is the students' legislative assembly, is active under the leadership of Linden Sheehan as chairman. Its most recent accomplishment is the devising of an excellent set of rules of conduct to govern socials in their new setting. The Athletic Association is doing valuable work in making possible the carrying on of interscholastic competition in basketball and baseball. Tag football, speedball, basketball, baseball, and skiing offer the advantages of group play to pupils. The Junior Class is doing a fine job in publishing the school paper. The Senior Class, with the trip to Washington in view has already done a very commendable piece of work in putting on the annual play. A series of assemblies offer training for future public appearances. The moving picture machine is a valuable supplement to assembly programs and class work. Considerable work has been done during this year with boys' and girls' groups to meet a felt need for straight forward discussion of life problems. Any attempt to evaluate this work would be premature.

There are a number of problems arising in connection with these extra-curricula activities that need considerable thought. As has been stated the high school's are now being held in the Pittsfield Athletic Club hall, which, in spite of an excellent and commendable job of renovating on the part of the club members, is open to criticism on the grounds of location and sanitary facilities. I believe that it must be recognized that this arrangement is at best but a makeshift.

It has been the practice for a number of years to transport athletic teams in private cars and to reimburse the owners of the cars to some extent by paying for the gas and oil used. Standard liability

policies read: "The Company shall not be liable for loss, damage, and/or liability:If the Automobile.....described herein is used in carrying passengers for compensation (actual or *implied*)....." So far there have been no serious accidents but there is no guarantee that there will not be in the future. In that event I doubt that we could justify ourselves for having permitted this practice to continue. I strongly recommend that funds be provided for the hiring of a bus, properly covered by insurance, for the transportation of athletic teams.

The most perplexing of the problems arising in connection with the extra-curricula activities concerns the annual trip to Washington by the members of the Senior Class. I have always held that, since the class plans for this trip and works for it as a group, every member of the class should go on the trip unless for some reason other than a financial one he does not wish to go. I believe that this is the only stand that can be taken in fairness and justice to all. However, classes are increasing in size to such a degree that it is becoming almost impossible to raise enough money to take the whole group on the trip. By the beginning of the senior year classes usually have been able to accumulate between \$300 and \$400. The cost of the present trip for thirty persons is approximately \$1400. This means that the class must raise about 1000 dollars in eight months. During this period of time the Athletic Association must put on a campaign to finance athletics, and the Sophomore and Junior classes must be at work on their money raising activities. With these facts in view it must be recognized that while a trip to Washington for all of the members of the Senior Class may be a desirable goal, our ability to finance such a trip is by no means certain. It is my suggestion that we be careful about raising false hopes in respect to the Washington trip in the minds of the students and of their parents.

Through clinics, as well as privately, many children have had physical defects corrected. Our dental clinic that we have each year is a great benefit to the children. We do have a good number attend but wish

that every child might have his dental defects corrected at least once a year, as this seems to be our most difficult health problem. The tonsil clinic each year has been a great help in the correcting of tonsil and adenoid defects. We greatly appreciate the help of the Red Cross in our clinic work. The epidemic of measles and whooping cough during the summer resulted in having few contagious diseases in the schools this year. Dr. Robert Kerr gave the Mantoux T. B. skin test to 133 children. The second test was given to 112 children. The twelve who reacted were X-rayed and no trace of T. B. was found. The P. T. A. furnished milk to 43 children and it was a great help to them as they did not have milk at home.

The cooperation of parents, teachers and school officials with the school health program is greatly appreciated.
